MATERIALS OF UNKNOWN ORIGIN OR FOREIGN MATERIALS

Reference to FHWA IN Reply Refer To: HIPA-30 see below and attached.  
 The miscellaneous steel or iron components, subcomponents and hardware necessary to encase, assemble and construct the above components (or manufactured products that are not predominantly steel or iron) are not subject to Buy America coverage.

This certification is made for the purpose of establishing the materials acceptance under the Buy America Certification (23CFR 635.410). All iron and steel manufacturing processes, including protective coating, for the domestic materials described above occurred in the United States of America.

Manufacturer's certificates verifying the origin above described in the domestic materials will be kept on file as long as the product is on the QPL. ODOT has the right to verify at any time the material source. Copies will be provided to ODOT once per calendar year and upon request: I declare under the penalty of perjury under the Oklahoma and Federal Laws that the foregoing is true and correct.
