

QUICKBOOKS FOR CONSTRUCTION COMPANIES

QuickBooks is well suited for small or start-up construction companies who need easy-to-use software that fits into the budget. Very little time is needed to get QuickBooks up and running for your business. It has solid accounting capability with industry specific chart of accounts, good integration with third-party software and a wide range of add-ons that will make accounting easier for you. Join us for this free to DBE class and learn more about how QuickBooks can help you manage your business more effectively.

Companies that are interested must be in the heavy highway construction industry and qualify as a small business according to SBA standards. There is no cost for the seminar but seating is limited so pre-registration is required. For more information or to register call Victoria Armstrong at 405-522-3978 or by email at VArmstrong@ODOT.org.
