

ODOT seeking input on proposed widening project on US-169 in Tulsa

FOR IMMEDIATE RELEASE

August 25, 2009

PR# 09-057

The Oklahoma Department of Transportation is seeking citizen input on plans for a proposed widening project on US-169 between I-244 and 56th St. North in Tulsa.

Plans call for widening US-169 from four lanes to six lanes in this area, and for bridge rehabilitation work at Pine Street. Work will be done within the existing right-of-way, and no additional land will need to be acquired.

This call for input is part of a federal requirement to gather as much information as possible about the proposed project area. While there is not a start date yet for this proposal, there are tentative plans for a portion of the work on US-169 from I-244 to 36th St. North to receive bids in Fall 2009.

Citizens can contact the department to share their views on the proposal as part of this environmental study. A copy of the proposed Typical Section Image is attached. A hard copy can be requested from the address below, and can also be viewed at: <http://www.okladot.state.ok.us/meetings/other.php>

Citizens can contact the department with their input by mail:

Environmental Programs Division Engineer
c/o ODOT
200 Northeast 21st St.
Oklahoma City, OK 73105-3204

Or by phone/email:

Greg Phillips – (405) 521-2321, gphillips@odot.org

All citizen correspondence should be submitted by September 9, 2009.
