US-62 (Shawnee Bypass) resurfacing work begins Thursday in Muskogee; 11th St. turns restricted Thursday through Sunday

A project to resurface the eastbound lanes of US-62 (Shawnee Bypass) from US-69 to Main St. in Muskogee begins Thursday and will continue through October. North and southbound 11th St. traffic must turn right at US-62 (Shawnee Bypass) and drivers on east and westbound US-62 (Shawnee Bypass) will not be able to turn left at 11th St. Thursday morning through Sunday due to work in the median.

Drivers can also expect temporary nighttime lane closures on eastbound US-62 (Shawnee Bypass) for asphalt resurfacing work for the duration of the project. Drivers should expect delays and plan for extra travel time or locate an alternate route.

The nearly \$652,000 contract for this project was awarded to Glover and Associates, Inc. of Muskogee by the Oklahoma Transportation Commission in July.
